SKILLS

React, Next.js, TypeScript, Redux, WebSockets, SEO, NestJS, Java/Spring Boot, Python/Django, Ruby on Rails, Node.js, Express, GraphQL, REST APIs, PostgreSQL, MongoDB, Prisma, Drizzle, Redis, SQL, Docker, AWS, CI/CD, Kubernetes, Stripe, Braintree, Auth/JWT, TDD, Cypress, Jest, Accessibility, Three.js, Framer Motion, Tailwind, RAG, LLM integration, agentic AI, data visualization, system design.

WORK EXPERIENCE

Software Engineer, Student Card Albania

May 2025 - Present | Albania, Remote

Albania's ISIC platform for digital and physical student cards, student verification, payments, and benefit discovery.

- Leading architecture and implementation across a Next.js client, admin dashboard, NestJS backend, and PostgreSQL/Drizzle data model for a platform built to support Albania's 100,000+ university students.
- Implementing Braintree payments, ISIC database integration, card validation, ID generation, student verification, and operational workflows for physical card delivery.
- Building B2B monetization features for partner businesses, promotional packages, and local benefit listings.

Software Engineer, Bioloupe

Aug 2025 - Present | Warsaw, Poland

AI-powered biopharma intelligence platform for pharmaceutical data, market analysis, and strategic planning.

- Building Ruby on Rails and Next.js features that turn fragmented pharma sources into structured intelligence, dashboards, and decision-ready workflows.
- Implementing data engineering, web scraping, knowledge-graph, and LLM-assisted extraction pipelines across clinical, regulatory, and commercial datasets.
- Developing an agentic research workspace with desktop-style capabilities for multi-step analysis, plus forecasting tools that use Monte Carlo simulation and mathematical sensitivity analysis.

Software Engineer, The Coaching Masters

Jan 2024 - Aug 2025 | Warsaw, Poland

Video learning, community, marketplace, and AI coaching platform for a global coaching audience.

- Implemented video processing and streaming systems for 16K+ users, improving playback performance by 40% and supporting course delivery at scale.
- Built a RAG chatbot with a custom knowledge base, SSE streaming, query expansion, user context, vector search, and persistent chat history.
- Architected admin dashboards, workflows, document collaboration tools, payments, Docker/CI pipelines, and database design using Next.js, NestJS, PostgreSQL, Stripe, and Qdrant.

Software Developer, Freelancer

2020 - 2024 | Remote

Delivered 20+ client and prototype projects across hospitality, entertainment, e-commerce, real estate, HR, healthcare, 3D, and AI.

- **Vila Emes:** Built a fast Astro website for a family-run hotel in Durres with multilingual content, SEO, image optimization, and booking-focused landing pages.
- **Spin City Records:** Built an initial peer-to-peer vinyl marketplace prototype with TypeScript, Next.js, tRPC, Prisma, PlanetScale, Stripe payments, and AWS S3 storage.
- Preserved breadth from earlier work through shipped prototypes in 3D showrooms, travel planning, data dashboards, restaurant landing pages, and business automation.

EDUCATION

Bachelor of Science in Computer Engineering, Epoka University

Sep 2016 - Jul 2020 | Tirana, Albania

Software Engineering Immersive, Codeworks

Jan 2023 - Aug 2023 | Remote
